2.23) A_1 : Probabilitate de ter cancer: $1/1.000.000 = 0,000001$

A_2 : Probabilitate de nu te cancer: $0,999999$

$$P(B) = 0,99 \cdot 0,000001 + 0,01 \cdot 0,999999$$

$$0,00000099 + 0,00999999$$

$$0,01000098$$

$$\frac{P(A_1) \cdot P(B|A_1)}{P(B)} = \frac{0,99 \cdot 0,000001}{0,01000098} = \boxed{0,000099 = 1 \text{ din } 10.000}$$
